As for

15.5.39.

Dear Mr. Hickley.

With reference to your letter, the Memorandum, in my opinion, shed stress (a) the loss to Ireland by the arbitrary cutting off of the North Eastern portion. (b) the flight of the minority in the six counties. (c) the peril to Great Britain from the present irrational state of affairs.

I think members might do a little to remove such confusions as are to be found in phrases like "the people of Ulster." This ~~case~~ involves two errors. (i) In Britain the "people of Ulster" are supposed to be Protestants. In the North Eastern Counties there is a large Catholic majority. In the six counties there is a large Catholic minority - a majority in two.

The errors are - (i) The word "people" ignores the Catholics. (ii) The word "Ulster" is used for six counties only.

(3) The League I understand has two purposes, viz to educate Irishmen and Irishwomen in Britain, and also the British people. Your statement will doubtless discuss me that which facts can be published in the British Press.

With best wishes,  
Yours sincerely,  
W. S. Arundel.
